

All nutrients in one granule

Nitrophoska®

All nutrients in one granule

Product description

Our Nitrophoska® products are designed to provide high-quality and complete plant nutrition combining all the nutrients necessary for healthy plant growth. The nutrient formulas are adjusted precisely to the requirements of different crops, crop rotations, and cultivation systems, as in addition to the right nutrient ratio, the specific forms of the nutrients are crucial for positive plant development.

Product examples

- Nitrophoska® 13-10-20 (+3S)
- Nitrophoska® 15-15-15 (+2S)
- Nitrophoska® 20-10-10 (+3S)
- Nitrophoska® 12-12-17 (+2MgO +8S)
- Nitrophoska® 16-16-8 (+4S)
- Nitrophoska® 13-9-16 (+4MgO +7S)
- Nitrophoska® 24-8-7 (+2S)

The advantages at a glance

- 1 A combination of nutrients precisely adjusted to crop needs
- 2 Complete nutrient supply for crops
- 3 Efficient and rapidly effective forms of nutrients
- 4 Minimal nutrient losses
- 5 Excellent granulation with all nutrients combined in every granule
- 6 Lower work input
- 7 Excellent storage and spreading properties with working widths of over 40 meters (90% of the granules are between 2 and 5 mm)
