

The balanced nitrogen-phosphate fertilizer

 Nitrophos®

The balanced nitrogen-phosphate fertilizer

Product description

Our nutrient formulas are engineered specifically to meet the needs of different crops, crop rotations and cultivation systems. Products are tailored for specific crops from a range of formulas, such as a balanced NP-formula.

Product examples

- Nitrophos® 20-20 (+2S)
- Nitrophos® 25-15

The advantages at a glance

- 1 Efficient and rapidly effective forms of nutrients
- 2 Minimal nutrient losses
- 3 Excellent granulation with all nutrients combined in each granule
- 4 Excellent storage and spreading properties with working widths of over 40 meters (90% of the granules are between 2 and 5 mm)
